and Florists

W. Atlee Burpee Co.
Seed Growers Philadelphia

Burpee's Blue List for 1921

Burpee's Blue List is intended for the exclusive use of **Market Gardeners, Florists, and Commercial Growers** who want the Best Seeds that Grow.

The prices in this catalog cover cost of bags, boxes, and all packing but **do not include cost of transportation**. The purchaser pays freight or express charges upon receipt.

SEEDS BY MAIL. If seeds are ordered by mail, the cost of postage (Parcel Post rates) should be sent with the order. The Parcel Post rates are regulated according to distance, and the purchaser can readily ascertain the postage by applying to his postmaster. Parcel Post shipments will be insured if the purchaser so requests, in which case the cost of insurance should be sent with the order.

SEEDS BY FREIGHT AND EXPRESS. Where it is convenient to use Express service, we recommend it as economical, and you are assured of prompt delivery. Where very large quantities are to be forwarded, or the distance is short and time is not a factor, freight charges are lower than express. If your station is a "prepaid station," please send an amount sufficient to cover transportation charges with your order.

It is our desire to give our customers the benefit of whatever method of transportation may be most economical for them. Should you be in doubt as to the best method, we would suggest that you leave this to us, and take advantage of our wide shipping experience.

C. O. D. SHIPMENTS can be made **by express** (not by freight) when \$2.00 is remitted with the order to cover express charges and guarantee acceptance upon arrival. Small shipments may be sent by Parcel Post C. O. D.

Perishable goods, such as Potatoes, Onion Sets, Bulbs and Roots, **cannot be sent C. O. D.**

OUR TERMS are Cash with the Order, unless you are personally known to us, or in a business where we can learn your financial standing from the commercial agencies. Our prices are fixed **close to cost**, hence we must maintain our rule of "cash with the order" or C. O. D. by Express or Parcel Post.

YOU RUN NO RISK in sending cash with the order. Our reputation as honest and experienced seedsmen is known the world over. Our financial responsibility can be learned from any bank, trust company, or merchant who subscribes to one of the commercial Agency Reports. You may remit, **at our risk**, by post-office money-order, check, draft, or express order. Use registered letter if you send cash or stamps.

HOW TO ORDER. Please be careful to **sign your name** and **give your complete address on every** order and letter sent us. Order by catalog number or variety name—the number alone is sufficient. If you have an inquiry to make or other matters to refer to when sending an order, write the inquiry on a separate sheet of paper from your order and sign your name and address to each. Your orders will be promptly filled and your inquiries will receive careful attention.

Our Advice is to Order Early

Burpee's Annual for 1921

Our retail catalog gives full descriptions of the many varieties of flower and vegetable seed which we supply, and much other information of interest and value. To Market Gardeners and Florists, we allow a **Discount of 25%** on seeds ordered in retail packets only from **BURPEE'S ANNUAL**. Ounces and fractions of ounces, quarter pounds and pounds are charged at the prices given in this catalog and are not subject to discount.

This Catalog cancels all previous quotations.

Lower Prices

We are able now to produce seed of first quality at lower cost than during the War Period. We can, therefore, offer you Burpee's Seeds for 1921 at very reasonable prices—prices which, in view of the prevailing high cost of other commodities, we are sure will be most welcome.

Whether or not this low price level can be maintained another year we cannot say, but, while the opportunity is here, we are doing our part to bring down the high cost of living.

Moreover, we are going to be satisfied with a lower margin of profit than we have been accustomed to take in previous years and which, under normal conditions, we should have. Like all Americans who have the permanent welfare of this country at heart, we want to see prices for all commodities go back to normal. In order to bring this about, the leaders in every branch of industry are making sacrifices just as we are.

On the other hand, we want to assure you that Burpee's Seeds for 1921 have been grown with just as much care and attention to quality as ever. We are proud of our reputation for quality, and, regardless of cost and of profit, we mean to maintain it.

Burpee's Seeds for 1921 are the best that can be grown at any price

Burpee-Quality Vegetable Seed

Tested and Proved at Fordhook Farms

Quality in seed is an important consideration with any planter. It is especially important to the Market Gardener and the Florist, whose very livelihood depends directly upon the results of their crops. **Burpee's Seeds** have enjoyed for years a well-deserved reputation for **quality** and **reliability**, and it is largely because of this fact that there are today more growers buying from **Burpee** than ever before.

At **Fordhook Farms** we conduct the **largest and most complete Trial Grounds in America**, where over twenty-two thousand tests for germination and purity of seed stocks are made each year to safeguard our customers. These carefully made tests are checked by additional trials at our **Sunnybrook Farm** in New Jersey and at **Floradale Farms** in California. Our Trial Grounds thus enable us to render a real and unique service to the planters of America. In buying Burpee's Seeds you are assured of getting seed of the utmost quality—seed from which the element of doubt has been removed as far as is possible by human care.

With seed, as with every other commodity, it costs more to produce best quality than it costs to produce average quality. But the best of anything is proverbially cheapest in the long run, and this is strikingly true with seed, for the cost of the seed is, almost without exception, the smallest item of expense in growing a crop. Even a slight improvement in a crop through the planting of good seed will repay many times over the small additional cost of the seed.

As we now enter upon the forty-fifth year of our service to the truckers and florists of America, we are in a better position to supply **Quality Seeds** and render more prompt and adequate **Service** than ever before.

Faithfully yours,

THE BURPEE STANDARD IN SEEDS is the highest it is possible to attain to-day, and yet we aim for still further betterment. PROGRESS is our watch-word! Planters throughout the world, whether gardening for pleasure or profit, soon learn that "the best is the cheapest." These three sentences convey the principal "reasons why" the Burpee-Business grows steadily year by year. Shall we have the pleasure of serving you this season, or will you wait until importuned by some traveling salesman or storekeeper to buy other seeds claimed to be "just as good as BURPEE'S"? You may get as good, but you cannot get better seeds at any price!

Burpee's Early-Flowering Sweet Peas

Four Grand Novelties for 1921

3366 Glitters (Burpee's)

It is giving this novelty scant praise when we say it is a "great flower." No variety we know of approaches GLITTERS in richness, brightness, and live fire effect. It is unique and outstanding, far ahead of all other orange-colored sweet peas. It glitters and scintillates, with a fire-like sheen radiating over the flowers. Magnificent by day, its color under artificial light is startling. We can only attempt to describe its flaming hue—to be fully appreciated it must be seen. The standard is a bright, fiery orange, and the wings are deep orange. The enormous flowers are of substantial texture, and hold up well after cutting. The individual flowers are of large size and both standard and wings are boldly waved. The flowers are artistically placed, usually in fours, on a long and strong stem. The sprays are majestic, but graceful withal, and make up into a most striking bunch. GLITTERS is a strong and vigorous grower, with healthy, deep green foliage, blooming profusely and continuously. Pkt. (12 seeds) 35 cts.; $\frac{1}{2}$ oz., \$3.25; oz., \$6.00.

3360 Flamingo (Burpee's)

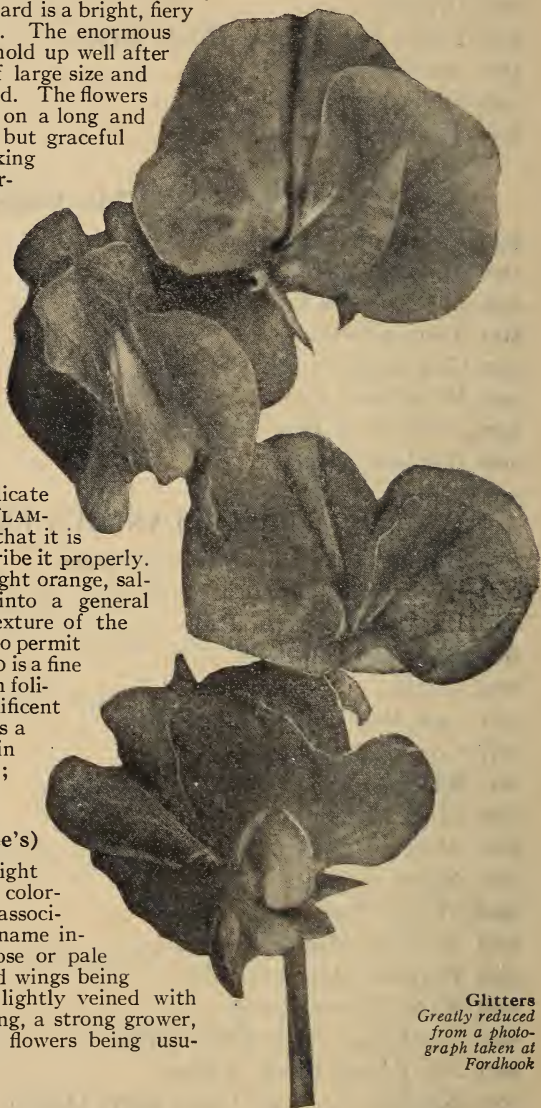

This is a distinct and charming variety, the color in particular being attractive and pleasing. The flowers are truly enormous in size, usually produced in threes and fours on very long, stiff stems. The broad and well-waved standard is light orange, with a suffusion of bright salmon, and the wings are a delicate shade of orange-pink. A bunch of FLAMINGO is of such rare and unique beauty that it is almost impossible to find words to describe it properly. It is a most charming combination of light orange, salmon, and orange-pink, which blends into a general effect of bright, light orange. The texture of the flowers is substantial, yet light enough to permit of the most graceful waving. FLAMINGO is a fine grower, with strong stems and rich green foliage, and, above all, it produces its magnificent sprays in great profusion. FLAMINGO is a splendid variety and should be included in every garden. Pkt. (12 seeds) 35 cts.; $\frac{1}{2}$ oz., \$4.50; oz. \$8.00.

3375 Lemon Beauty (Burpee's)

This variety goes well with those of a bright cerise or fiery shade; in fact, the rich coloring of the latter is accentuated when associated with LEMON BEAUTY. As the name indicates, this novelty is a soft primrose or pale lemon-colored variety, the standard and wings being softly tinted amber, and sometimes lightly veined with rose-pink. Most attractive and pleasing, a strong grower, stems of great length, the immense flowers being usually borne three or four on a stem. Pkt. (12 seeds) 35 cts.

3382 Peach Blossom (Burpee's)

An altogether new and distinct color in sweet peas, and which may be described as a pale amaranth-pink which deepens somewhat around the edges of the standard and wings. A true self, standard and wings being of the same shade. The color becomes deeper as the days lengthen. A vigorous grower and free-flowering, with stems of great length. Pkt. (12 seeds) 35 cts.

Burpee's Early- or Winter-Flowering Spencer Sweet Peas

The Winter-Flowering Spencer Sweet Peas are invaluable for greenhouse culture, blooming to perfection when grown indoors. If sown early in September, they come into flower by Christmas and may be had all Winter long from succession plantings.

For the year of 1921 we have a number of outstanding novelties to add to the comprehensive list of Burpee varieties in the Early- or Winter-Flowering type of Spencer Sweet Peas. These novelties are described at length on the preceding page. In the list below, we have given only a brief line of description to each sort, for our space in this catalog is limited. For illustrations and full descriptions, see pages 104-108 of Burpee's Annual for 1921.

Practically every desirable shade and color is represented in the Burpee list of Winter-Flowering Spencers. Many colors are included which have been much wanted and are not offered by any other Sweet Pea grower. The seed which we offer has all been grown on our Floradale Farms in California. Our stocks come true to color. We have not offered a variety to our customers until we were sure it would give satisfaction.

WHITE		Oz.	¼ lb.	Lb.

3401 Special Mixture of Light Shades	45	1 45	4 75

Standard or Summer-Flowering Spencer Sweet Peas

We offer re-selected stocks—grown at Floradale Farms. Last year was the worst year for Sweet Peas in our growing experience. Most varieties were very short crop and of several we did not harvest sufficient seed to permit us to offer them except in small packets. We advise you to put your order in just as soon as possible to avoid disappointment. We will fill orders as long as our stocks last.

For full descriptions, please refer to pages 102 to 112 of BURPEE'S ANNUAL for 1921

2549 All Colors, Mixed.	30	80	2 50

Concerning **Grandiflora Sweet Peas**, the introduction of the many new and improved Spencer Sweet Peas, particularly the Fordhook strains of Early-Flowering Spencers, has steadily restricted the demand for the old and less desirable Grandiflora type. Progressive planters are no longer using Grandiflora sorts. We discontinued growing them at Floradale Farms some time ago. The Spencer Sweet Peas are much better in every way.

Acres of Sweet Peas on Burpee's Floradale Farms, California

Burpee-Quality Flower Seeds For Florists

Flower seeds of the finest varieties and highest quality have always been a specialty with the House of Burpee. Floradale Farms have come to be known as the California Home of Flowers and, in addition to the many acres devoted there to the production of flower seeds, we grow annually a large number of important varieties at **Fordhook Farms** in Pennsylvania and **Sunnybrook Farms** in New Jersey.

Those seeds which we do not grow on our own farms are produced under our direct supervision and every possible safeguard is used to guarantee the Quality of Burpee's Seeds.

In the list below we have not attempted to give descriptions, for this is primarily a business catalog. BURPEE'S ANNUAL for 1921, our retail catalog, gives detailed information and complete descriptions, and if any further particulars are desired, we shall be glad to answer inquiries promptly and fully.

Our catalogs are our only salesmen. We do not send our traveling men to solicit Florists' orders. Look through this catalog at your first opportunity and send your order direct to us by mail. It will be filled promptly and carefully.

We do not offer "Trade Packets" of flower seeds. The name "trade packet" is indefinite. In every case we are offering suitable fractions of an ounce (accurate weight) of the more expensive varieties at reasonable prices. If still smaller quantities are desired, you may order "retail" packets (for which see BURPEE'S ANNUAL) at a discount of 25%.

We solicit your inquiries and your orders. We are ready to serve you and assure you of our heartiest co-operation in making your business a success.

W. ATLEE BURPEE CO.

Perennial Peas—see Lathyrus.

For forty-four years we have stated plainly that, where failure is caused by any fault of the seed, we would refund the full price paid. This should convince even new customers that we have confidence both in the quality of BURPEE'S SEEDS and in the great care exercised in their growing, cleaning, and packing. No honest seedsman could assume responsibility for more than the price actually paid by the purchaser. "The Value of a Guarantee is not what is said, but who says it."

Flowering Bulbs and Roots

The Florist, as well as the Landscape Gardener, will find much of interest in the following lists. Burpee's Bulbs are selected with the same care and attention to Quality as are Burpee's Seeds. All of the bulbs and roots offered herein are first size (unless otherwise stated), sound and healthy, and sure to bloom if given reasonable care.

We take particular pains in specially packing bulbs and roots to ensure their arrival in good condition and, for this reason, always ship bulbs separately from seeds when both are ordered. When placing your order, specify when and how you wish your bulbs to be sent. We do not ship in freezing weather unless ordered to do so, and then only at customer's risk.

Our collection of Dahlias is especially worthy of attention. Our lists of Cannas, Gladioli and Iris are not extensive but are carefully selected and comprise the best varieties for all purposes; in fact, it has been our aim throughout to offer Quality rather than Quantity. Refer to BURPEE'S ANNUAL for 1921, our retail catalog, for complete descriptions.

If you plant Tulips, Hyacinths, Narcissus, Crocus, or Hardy Perennials, send in your name now to receive a copy of BURPEE'S FALL BULB CATALOG (issued September 1st).

NOTE: Three or more bulbs will be supplied at the dozen rates, 25 or more at the 100 rates, and 250 or more at the thousand rates.

Burpee's Fordhook Hybrid Gladioli

This distinct new race originated at Fordhook from numerous crosses of "Præcox" with the best varieties of "Gandavensis," "Childs," "Nanceianus," "Lemoinei," and other types. The flowers frequently measure four to five inches in diameter and range in color from creamy white, lemon-yellow, soft salmon-pink, to bright red and deepest crimson, while there are also lovely light lavender or sky-blue shades and charming, rare pastel and art shades in wonderful combinations of rose, pink, salmon, and amber.

Burpee's Ready-Made Collections of Vegetable and Flower Seeds

These collections are intended primarily for the amateur (see pp. 95 to 101 of BURPEE'S ANNUAL FOR 1921), but are occasionally ordered by the commercial grower for his wife or to fill in the odd corner of the garden patch.

To Market Gardeners, Garden Clubs, and Florists we offer them at a special discount of 15% and, when twelve or more of a single collection are ordered, at a discount of 20%.

These discounts apply also to the special bulb assortments offered in BURPEE'S ANNUAL, when ordered in straight sets.

Burpee's Dahlias

Dahlias are one of our specialties at Fordhook Farms, where we have developed many seedlings of outstanding merit, particularly in the Peony-flowered type.

The Burpee exhibit of Dahlias was awarded the Gold Medal at the Annual Show of the American Dahlia Society in 1918, 1919 and again in 1920.

A FEW OF THE NEWEST AND FINEST SORTS

5195 Coppersmith (Burpee Novelty for 1921)

A peony-flowered variety of extraordinary merit. Habit perfect. Blooms early, profusely and continuously until frost. Flowers light copper or bronze, with a glistening suffusion of salmon-yellow, the reverse of the petals reddish bronze, on long, stiff, wiry stems. Unsurpassed for cutting or general decorative work. Awarded Certificate of Merit by the Pennsylvania Horticultural Society, September, 1920.

Strong roots, \$1.85 each; 3 for \$4.75.

Coppersmith

5209 Fordhook Maroon (Burpee Novelty for 1921) Sturdy, upright plants, producing flowers of great size. Rich maroon, shaded mahogany. Peony-flowered. **Strong roots, 85 cts. each; 3 for \$2.35.**

5177 Jean Kerr The most valuable of all white Decorative Dahlias. It is one of the first to flower and blooms continually until killed by frost. Of strong, compact growth, with pure white blooms carried well above the foliage on long, strong stems. Awarded Certificate of Merit by The American Dahlia Society, September, 1916.

Strong roots, 75 cts. each; 3 for \$2.00; 12 for \$7.00.

Jean Kerr

5183 King of the Autumn This variety has attracted a great deal of attention. Of strong growth, producing freely large flowers of the long-petaled Decorative type. Color, a blend of salmon-pink, gold and buff

Strong roots, 65 cts. each; 3 for \$1.75; 12 for \$6.00.

5219 Orient Peony-flowered. Orange-scarlet, heavily flaked with bright yellow. Extremely free-flowering. **Strong roots, 85 cts. each; 3 for \$2.35.**

5213 Golden Rose Peony-flowered. Yellow, suffused rose, each petal having a distinct picotee edge of rose. A free and continuous bloomer. **25 cts. each; 3 for 65 cts.; 12 for \$2.00.**

5218 Lilac Queen Peony-flowered. Delicate lilac on white, base of petals suffused with bright yellow. Large flowers borne on long, strong stems. **50 cts. each; 3 for \$1.35; 12 for \$4.50.**

5244 Queen Elizabeth Peony-flowered. Large, well-formed flowers. Clear bright pink and one of the best for cutting.

Strong roots, 50 cts. each; 3 for \$1.35; 12 for \$4.50.

5120 White Star Cosmos-flowered or Star type. Produces in the greatest abundance, attractive flowers of medium size with one to three rows of broad, pure white outer petals and a golden yellow center. **Strong roots, 25 cts. each; 3 for 65 cts.; 12 for \$2.00.**

5171 Kalif A remarkable variety, producing gigantic flowers of perfect Cactus form on strong stems. Color bright, deep scarlet.

Strong roots, 85 cts. each; 3 for \$2.35.

5172 Wodan Hybrid Cactus type. Immense flowers, salmon-rose shading to old-gold in the center.

Strong roots, 65 cts. each; 3 for \$1.75.

5261 Queen Mary Decorative. Light, silvery pink flowers of enormous size on long, stiff stems. Free-blooming. **Strong roots, 45 cts. each; 3 for \$1.25; 12 for \$4.00.**

Golden Rose

5266 BURPEE'S TRIAL GROUND MIXTURE OF DAHLIAS	(100 for \$6.75)	—	1 00

Burpee's Seeds]Grow

FOR nearly fifty years Burpee's Seeds have set the standard by which all other seeds have been judged. Year in and year out Burpee's Seeds have been safe and dependable—always of the highest quality it has been possible to produce.

Such a record for reliability can be established and maintained only by constant attention to every detail, expert knowledge, and careful trials and tests. The whole Burpee Business—its organization and its policy—is built upon the one fundamental principle, the **Reliability of Burpee's Seeds**.

By far the greater part of Burpee's Seeds are selected and grown right on the Burpee Farms, in various parts of the United States—a greater proportion than that grown by any other American seedsman. And those not produced on our own Farms are grown by tried and experienced men under our direct supervision.

Burpee's Fordhook Farms

The largest and most complete trial grounds in America are located near Doylestown, Bucks County, Pennsylvania. It is at Fordhook Farms that we test and prove the quality, the vitality and purity, of every lot of seed sold by the House of Burpee. Each year over 15,000 germination tests are made in the greenhouses at Fordhook, and over 7,000 purity trials in the open trial grounds, in addition to the numerous plantings for stock seed selection. Here also are acres of Tomatoes, Phlox, Poppies, Salvia, Zinnia and many other Vegetable and Flower Seed crops.

Burpee's Sunnybrook Farm

The warm soils of Gloucester County, New Jersey, are particularly well adapted for the growing of some of the more tender crops. At Sunnybrook Farms we grow seed of Peppers, Egg Plants, Melons, and Cucumbers and the famous Sunnybrook strain of Earliana Tomato, as well as many other Vegetables and choice Flower seeds. And at Sunnybrook Farm we make our purity trials of Melons, Squashes, Pumpkins and other Vine crops.

Burpee's Floradale Farms

The many acres of this California Home of Flowers are devoted to the growing of selected stocks of the finest varieties of Flower seeds. For its Sweet Peas alone it is famous the world over. Alyssum, Snapdragon, Larkspurs, Calendulas, Marigolds and others, too numerous to mention, grow to perfection in the fertile climate of sunny Santa Barbara County. A visit to Floradale Farms when the Sweet Peas and other Flowers are in bloom is worth a trip across the continent.

The Burpee Idea

The work that is done at the Burpee Farms is the best kind of insurance that the reliance which is put in Burpee's Seeds will be well repaid. To maintain and improve the Burpee Quality, to lead in service and in enterprise, but, above all, to stand for **Absolute Reliability in Seeds**—that is the Burpee Idea.
